DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claim 4 is rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

a. How is the angle between the first and second toggle joints going to be between 175 to 180 degrees when the drawings show an acute angle when these toggles are in the locking position. Furthermore, what drawings disclose this limitation or range.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-2, 8, 10-11, 19-20, and 28 are rejected under 35 U.S.C. 102(b) as being anticipated by Lutz III (5921535).

Lutz III discloses the claimed invention as disclosed in claims 1-2, 8, 10-11, 19-20, and 28. The two joints are elements (80&40).

Allowable Subject Matter

Art Unit: 3723

4. Claims 3, 5-7, 12-13, and 22-27 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments filed 8/27/02 have been fully considered but they are not persuasive.

6. Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.

a. The rejections have been reviewed and reapplied. The new claims have been treated as well.
